SPECIFICATIONS FOR NEUROPSYCHOLOGICAL EVALUATION

The report (including a copy of the test protocols) should contain a detailed psychological evaluation (by a qualified psychologist specifically trained to perform cognitive testing, with a state license or certification with a Ph.D. or Psy.D. in Clinical Psychology, or is listed in the National Register of Health Service providers in Psychology) based on a battery of psychological tests. The tests suggested are as follows:

1. MMPI-2
2. WAIS-III
3. Memory Test (one of the following)
 - a. Wechsler Memory Scale - Third Edition
 - b. Rey Auditory Verbal Learning Test
4. Trails Making Test (A & B)
5. Category Test (booklet or machine)
6. Sensory-Motor Screening
7. Language Functioning Test (one of the following)
 - a. Speech Sounds Perception Test
 - b. Aphasia Screening Test

The evaluating psychologist should select the particular tests based upon his or her experience, considering the particular issues involved.
